

Purpose Built

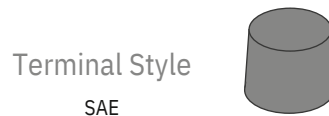

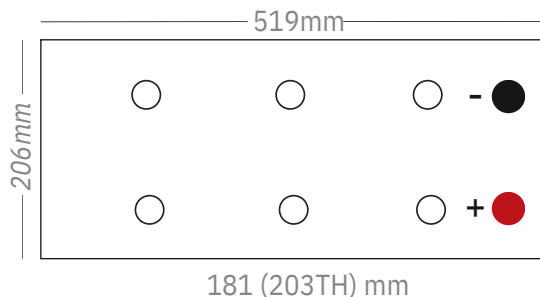

The Deltec Automotive battery range delivers exceptional performance tailored to the specific requirements of large trucks, buses, coaches, emergency vehicles, and a wide range of other automotive applications.

Key Features / Benefits

- High Durability Plate Technology delivers longer service life
- Reliable starting power with X-Frame Technology
- Ca-Ca infused plates to minimise corrosion and excess water loss.
- Designed to withstand the harsh driving conditions in Australia
- Superior cycling performance to assist with house and auxiliary loads
- Calcium+ - a highly pure, advanced lead-calcium-tin alloy technology features excellent prevention against corrosion, self-discharge, and electrolyte loss.
- The latest in full-framed stamped grid technology, Deltec's patented XFrame design provides stable and powerful starting performance.

Technical Specifications

Voltage:	12 volts
Ah:	135Ah
CCA (-18°C):	890
RC (0°C):	255
Reserve Capacity (20hr):	-
Weight:	35.5Kg
Dimensions:	519 x 206 x 181 (203)mm
Container:	Polypropylene
Terminal Type:	SAE Automotive Post
Terminal Layout:	RHP (Right Hand Positive)
Certificates:	ISO 9001:2015; ISO 14001:2015; IATF 16949:2016
