

DELTEC[®]

BATTERIES

DEEP CYCLE AGM

PERFORMANCE WHEN IT COUNTS

DEPTH YOU CAN DEPEND ON

Produced in a state-of-the-art manufacturing facility, Deltec sealed maintenance-free batteries are designed to excel in moderate to heavy cyclic applications within the leisure market. Our AGM range is purpose-built to be robust, delivering exceptional performance in demanding c20 cyclic applications. They are fully sealed with a valve regulated design, flame arresters and fire-retardant casing to meet Australian safety standards, while the vibration-resistant design will ensure consistent performance, even in rugged off-road leisure vehicles, for the entirety of the battery's life.

PROVEN PERFORMANCE

Deltec AGM Series is the primary choice for all leisure vehicles, no matter the application or terrain. They are specially designed to meet and even exceed the requirements of high-end vehicles that are heavily equipped with advanced electronic devices and accessories.

Benefits

- Long service life
- Maintenance-free design
- Exceptional performance in c20 cyclic applications
- Designed to withstand Australia's harsh conditions

Features

- Heavier plates for consistent power delivery
- High-density active material for increased durability
- Vibration-resistant design
- Fully compliant with Australian standards, featuring a fully sealed, valve-regulated design; fire retardant casing; and flame arresters.
