

## PERFORMANCE WHEN IT COUNTS

### HEAVY DUTY PERFORMANCE

Deltec sealed maintenance-free batteries are designed to excel in commercial vehicle applications. Produced in a state-of-the-art manufacturing facility, Deltec batteries are built with patented X-Frame technology and high-grade components for superior results.

Our Commercial range delivers reliable starting power, consistent performance and prolonged service life for even the harshest commercial applications where house loads are present. These batteries are designed to prolong life and help reduce chance of early failure.

## PROVEN PERFORMANCE

Demanding commercial vehicles require nothing less than the most powerful, reliable, durable batteries. Deltec Commercial batteries have proven starting capabilities, paired with a higher reserve capacity to provide consistent starting results for every commercial vehicle.

### Benefits

- Long service life
- Reliable starting power
- Maintenance-free design
- Designed to withstand the harsh driving conditions in Australia and New Zealand

### Features

The latest in full-framed stamped grid technology, Deltec's patented **X-Frame** design provides stable and powerful starting performance.

- With **High Durability Plate Technology**, micro-fibre is added to increase the durability of active mass, supplying stable and prolonged power supply.
- **Calcium+** - a highly pure, advanced lead-calcium-tin alloy technology features excellent prevention against corrosion, self-discharge, and electrolyte loss.
